CAMPLUX F5 ULTRA THERMOSTATIC PORTABLE PROPANE WATER HEATER, 1.32 GPM CAMPING HOT WATER SYSTEM

More like $\pm 4^{\circ}\text{F}$
temperature hold

- **The World's 1st Thermostatic Portable Water Heater**

No more cold or scalding showers. This propane water heater features $\pm 1^{\circ}\text{F}$ constant temperature control that locks in your ideal water temperature. Enjoy steady, comfortable water from start to finish. No more freezing starts or sudden burns

- **Stop Carrying Heavy Gear**

At only 9.9 lb with a compact portable design, size 11.8" x 5.3" x 14.6". This lightweight camping water heater fits anywhere and won't break your back. Grab the handle and go.

- **Hot Water Anytime Anywhere**

Get 1.32 gallons per minute of hot water the moment you turn it on, with 3 seconds heat-up.

Use this portable propane water heater for washing muddy dogs, rinsing camping gear, filling a bucket for dishes, or a quick outdoor rinse. One tool for endless outdoor tasks

- **Easy Setup in 5 Minutes**

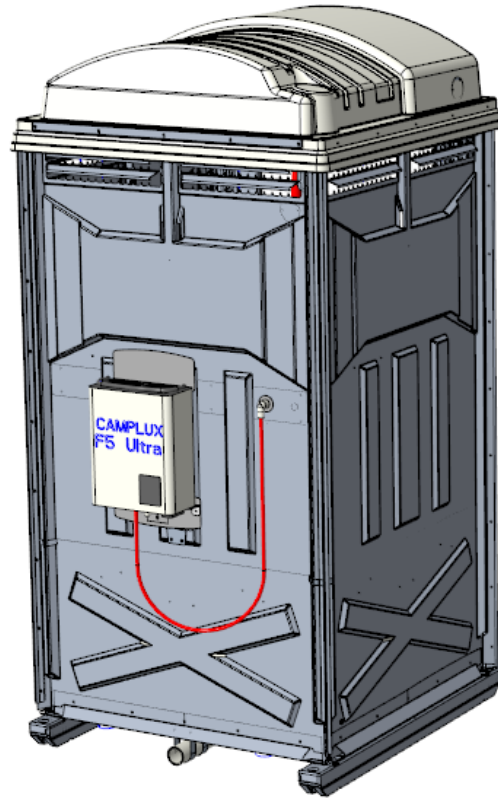

Get hot water fast without the hassle, no tools or plumber needed. Simply connect the propane tank, attach the water source, and set the temperature on the digital display then you are ready to shower.

- **Complete 5-Layer Safety Protection**

This propane tankless water heater is built with 5 layers of protection:

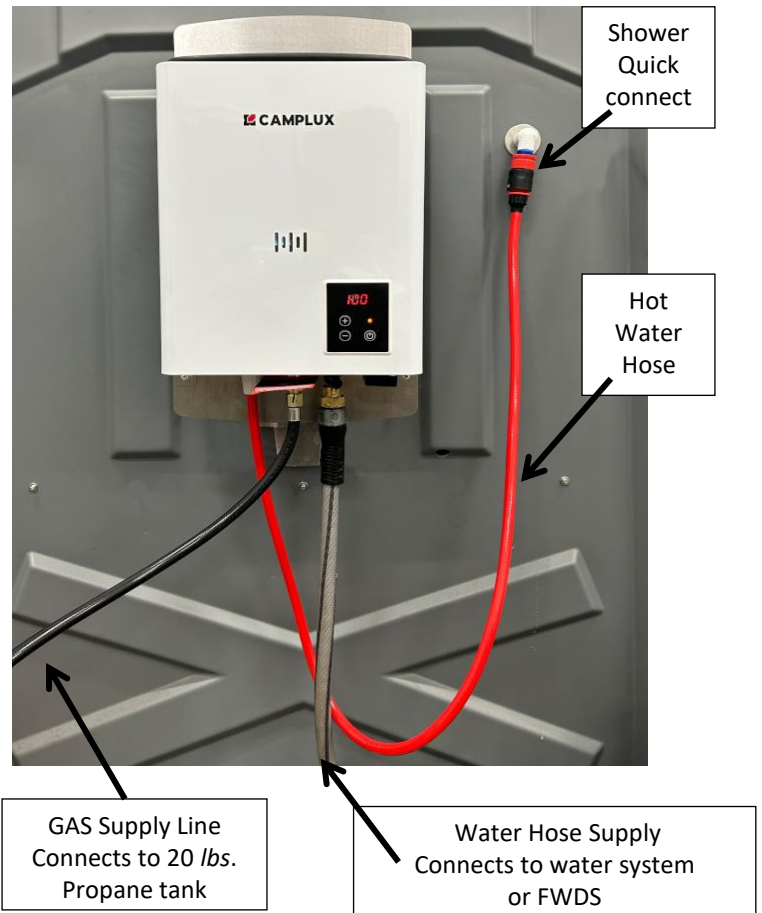

flame failure auto shutoff, overheat protection, overpressure protection, low water flow shutoff, and dry combustion prevention. All safety functions work automatically, keeping you safe.

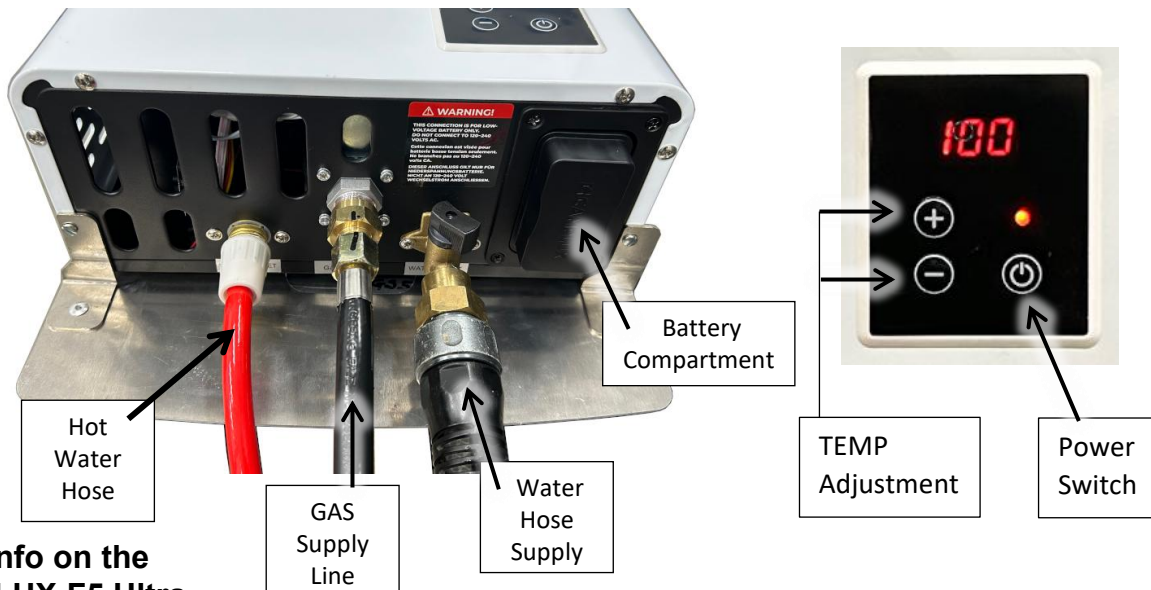

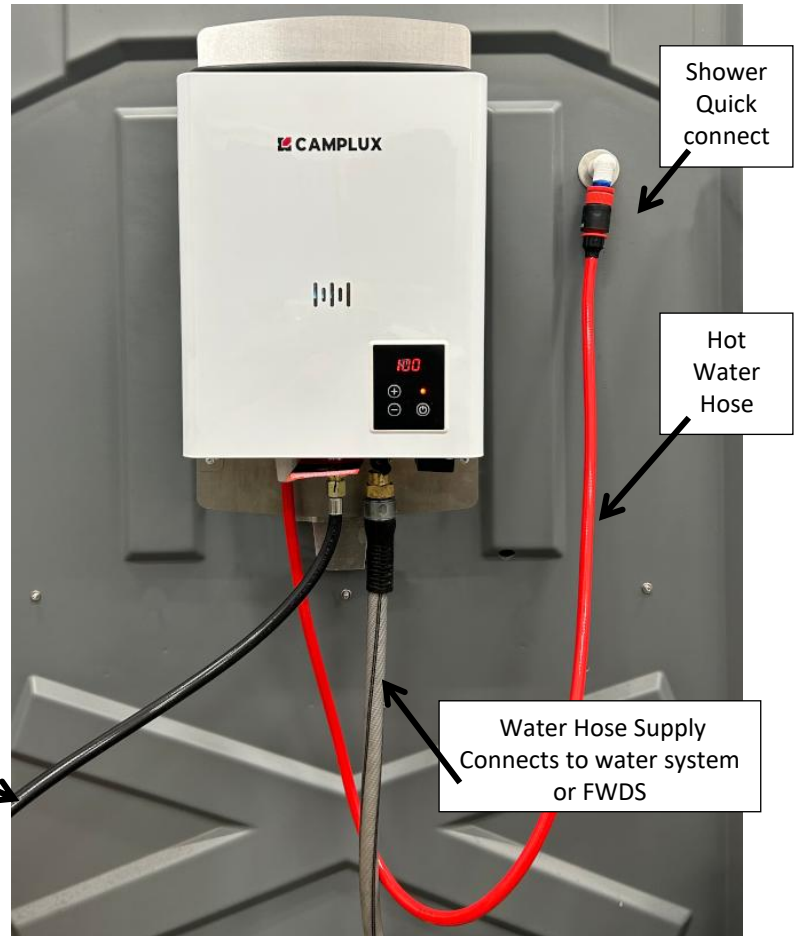

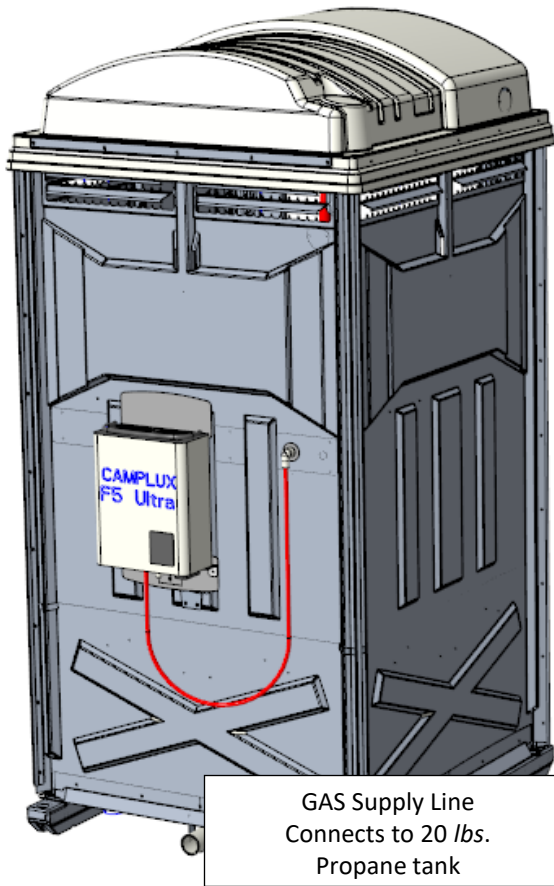

**CAMPLUX F5 Ultra
Water Heater attached to Axxis
