## 26' 12 & 15-STATION | ROUGHNECK™

Satellite Suites has created a beautiful 26' 2-Door restroom trailer that comes in a 12 & 15-Station option for high-traffic rural events, construction sites, and oil field operations. The Roughneck™ uses our portable restroom urinals and tanks, eliminating the need for running water and cutting down the amount of time between services. The 15-Station trailer features six private stalls in the women's restroom and three private stalls plus two urinal troughs in the men's restroom, while 12-Station trailer includes six private stalls in both the men's and women's restrooms. The Roughneck™ has air conditioning, lighting, and is equivalent to about 12-15 portable toilets.
