

IDEAL FOR MANEUVERING AROUND TIGHT SPOTS

CABOVER TRUCKS

EXTREME VERSATILITY

When versatility is paramount, turn to the Satellite's Cabover line. Featuring the Isuzu NRR chassis, it offers a best-in-class turning radius to handle various configurations seamlessly.

The low cab forward design enhances driver visibility, allowing obstacles to be seen directly in front. This makes it perfect for maneuvering tight urban spots and trailer positioning. Its compact cab design also maximizes hauling space.

Available in both gas and diesel, the chassis offers versatile configurations to meet various needs, from fence trucks to P&D. This ensures it's both operator and route-friendly. Plus, the tank is available in lightweight aluminum, mild steel, or stainless steel, providing unmatched flexibility in designing your truck.

ISUZU FENCE TRUCK

Satellite's Fence Truck sets the standard for efficiency and visibility. With an 8x12' bed, two stainless steel cabinets for ample storage, a built-in step ladder for easy access, and strobe lights on all sides, it's perfect for any work zone.

Bed Length - 12' | Bed Width - 8' | GVW: 19,500 lbs

Material: Aluminum, Carbon Steel, Stainless Steel

ISUZU MD 950

The Isuzu MD 950 is ideal for urban environments. It features customizable vacuum and washdown systems, ensuring ergonomic design and efficiency to meet your specific needs. This truck combines maneuverability with tailored functionality, making it perfect for city operations.

Waste - 650 Gal | **Fresh** - 300 Gal | **GVW:** 19,500 lbs

Material: Carbon Steel, Stainless Steel

ISUZU MAL 1300

The Isuzu MAL 1300 is designed for high-density routes requiring exceptional maneuverability and frequent services. Its lightweight aluminum construction and cabover chassis offer the agility of a pick-up truck with the capacity of a large service vehicle, ensuring easy navigation and efficient handling of high service volumes.

Waste - 900 Gal | **Fresh** - 400 Gal | **GVW:** 19,500 lbs

Material: Aluminum

ISUZU P&D 700

The Isuzu P&D 700 is the ultimate urban service truck with an exceptional tight turning radius. It offers customizable vacuum and washdown systems, ensuring ergonomic design for maximum efficiency and comfort. Build a truck that fits your application and enhances productivity.

Waste - 455 Gal | **Fresh** - 245 Gal | **GVW:** 19,500 lbs

Material: Aluminum
